High Power LED-Spot

Product features

- Direct use in machining center
- IP67
- Shock- and vibration-resistant through special potting
- Series wiring possible
- Connectible with PLC output or fieldbus module
- Exchangeable pane optional
- Minor heat generation

Technical data

- Current consumption approx. 1A
- 24 VDC
- Connection 2 x M12 male / female connectors
- Standard configuration (pin4 + 24V, pin 3 0V)

Light-technical data

- cool white
- active temperature management (down-regulation of LED-current at overheating)

Additional Kit for dry machining applications

Clamp

Glass insert

Mounting accessories

Mounting bracket

Four feet
